

EUSDR Priority area 1b:
To improve mobility and multimodality: road, rail and air transport

CROATIAN RAILWAYS PROJECTS IN THE DANUBE REGION

Presentation for Steering group representatives
March 2019.

Republic of Croatia
Ministry of the Sea, Transport
and Infrastructure

Targeted focus on underdeveloped forms of transport

1. MULTIMODAL TRANSPORT

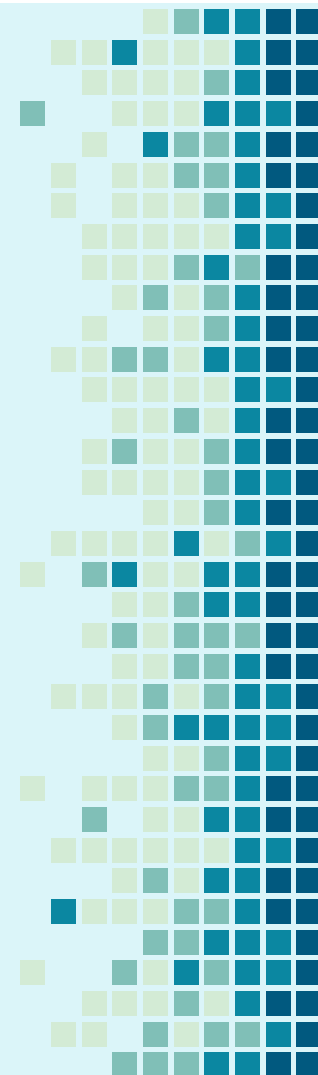

A special emphasis is given to multimodal transport through the functional linkage of the Rhine - Danube as well as the significant improvement of the connections between all ports and ports of inland waterways with the railway network

2. RAILWAY TRANSPORT

Significant improvements to the establishment of efficient, reliable, competitive and desirable mode of transport which will serve to the benefit of its citizens and business in a multimodal, interconnected and synchronized framework of European TEN-T Policy.
