

MUNICIPALITY OF KANJIŽA ОПШТИНА КАЊИЖА MAGYARKANIZSA KÖZSÉG

Interreg – IPA Cross-border Cooperation Programme Hungary – Serbia Third Call

Project ID: HUSRB/1903/21/0063

Project Acronym: CBC-BIKE

Project Title: Horgos-Röszke-Szeged - The good way connects everyone

Thematic Priority: Promoting sustainable transport and improving public infrastructures

Priority Axis: Decreasing the bottlenecks of cross-border traffic

Action: Border crossing points, roads and bicycle roads

Start of project: 01.10.2020.

End of project: 31.01.2022.

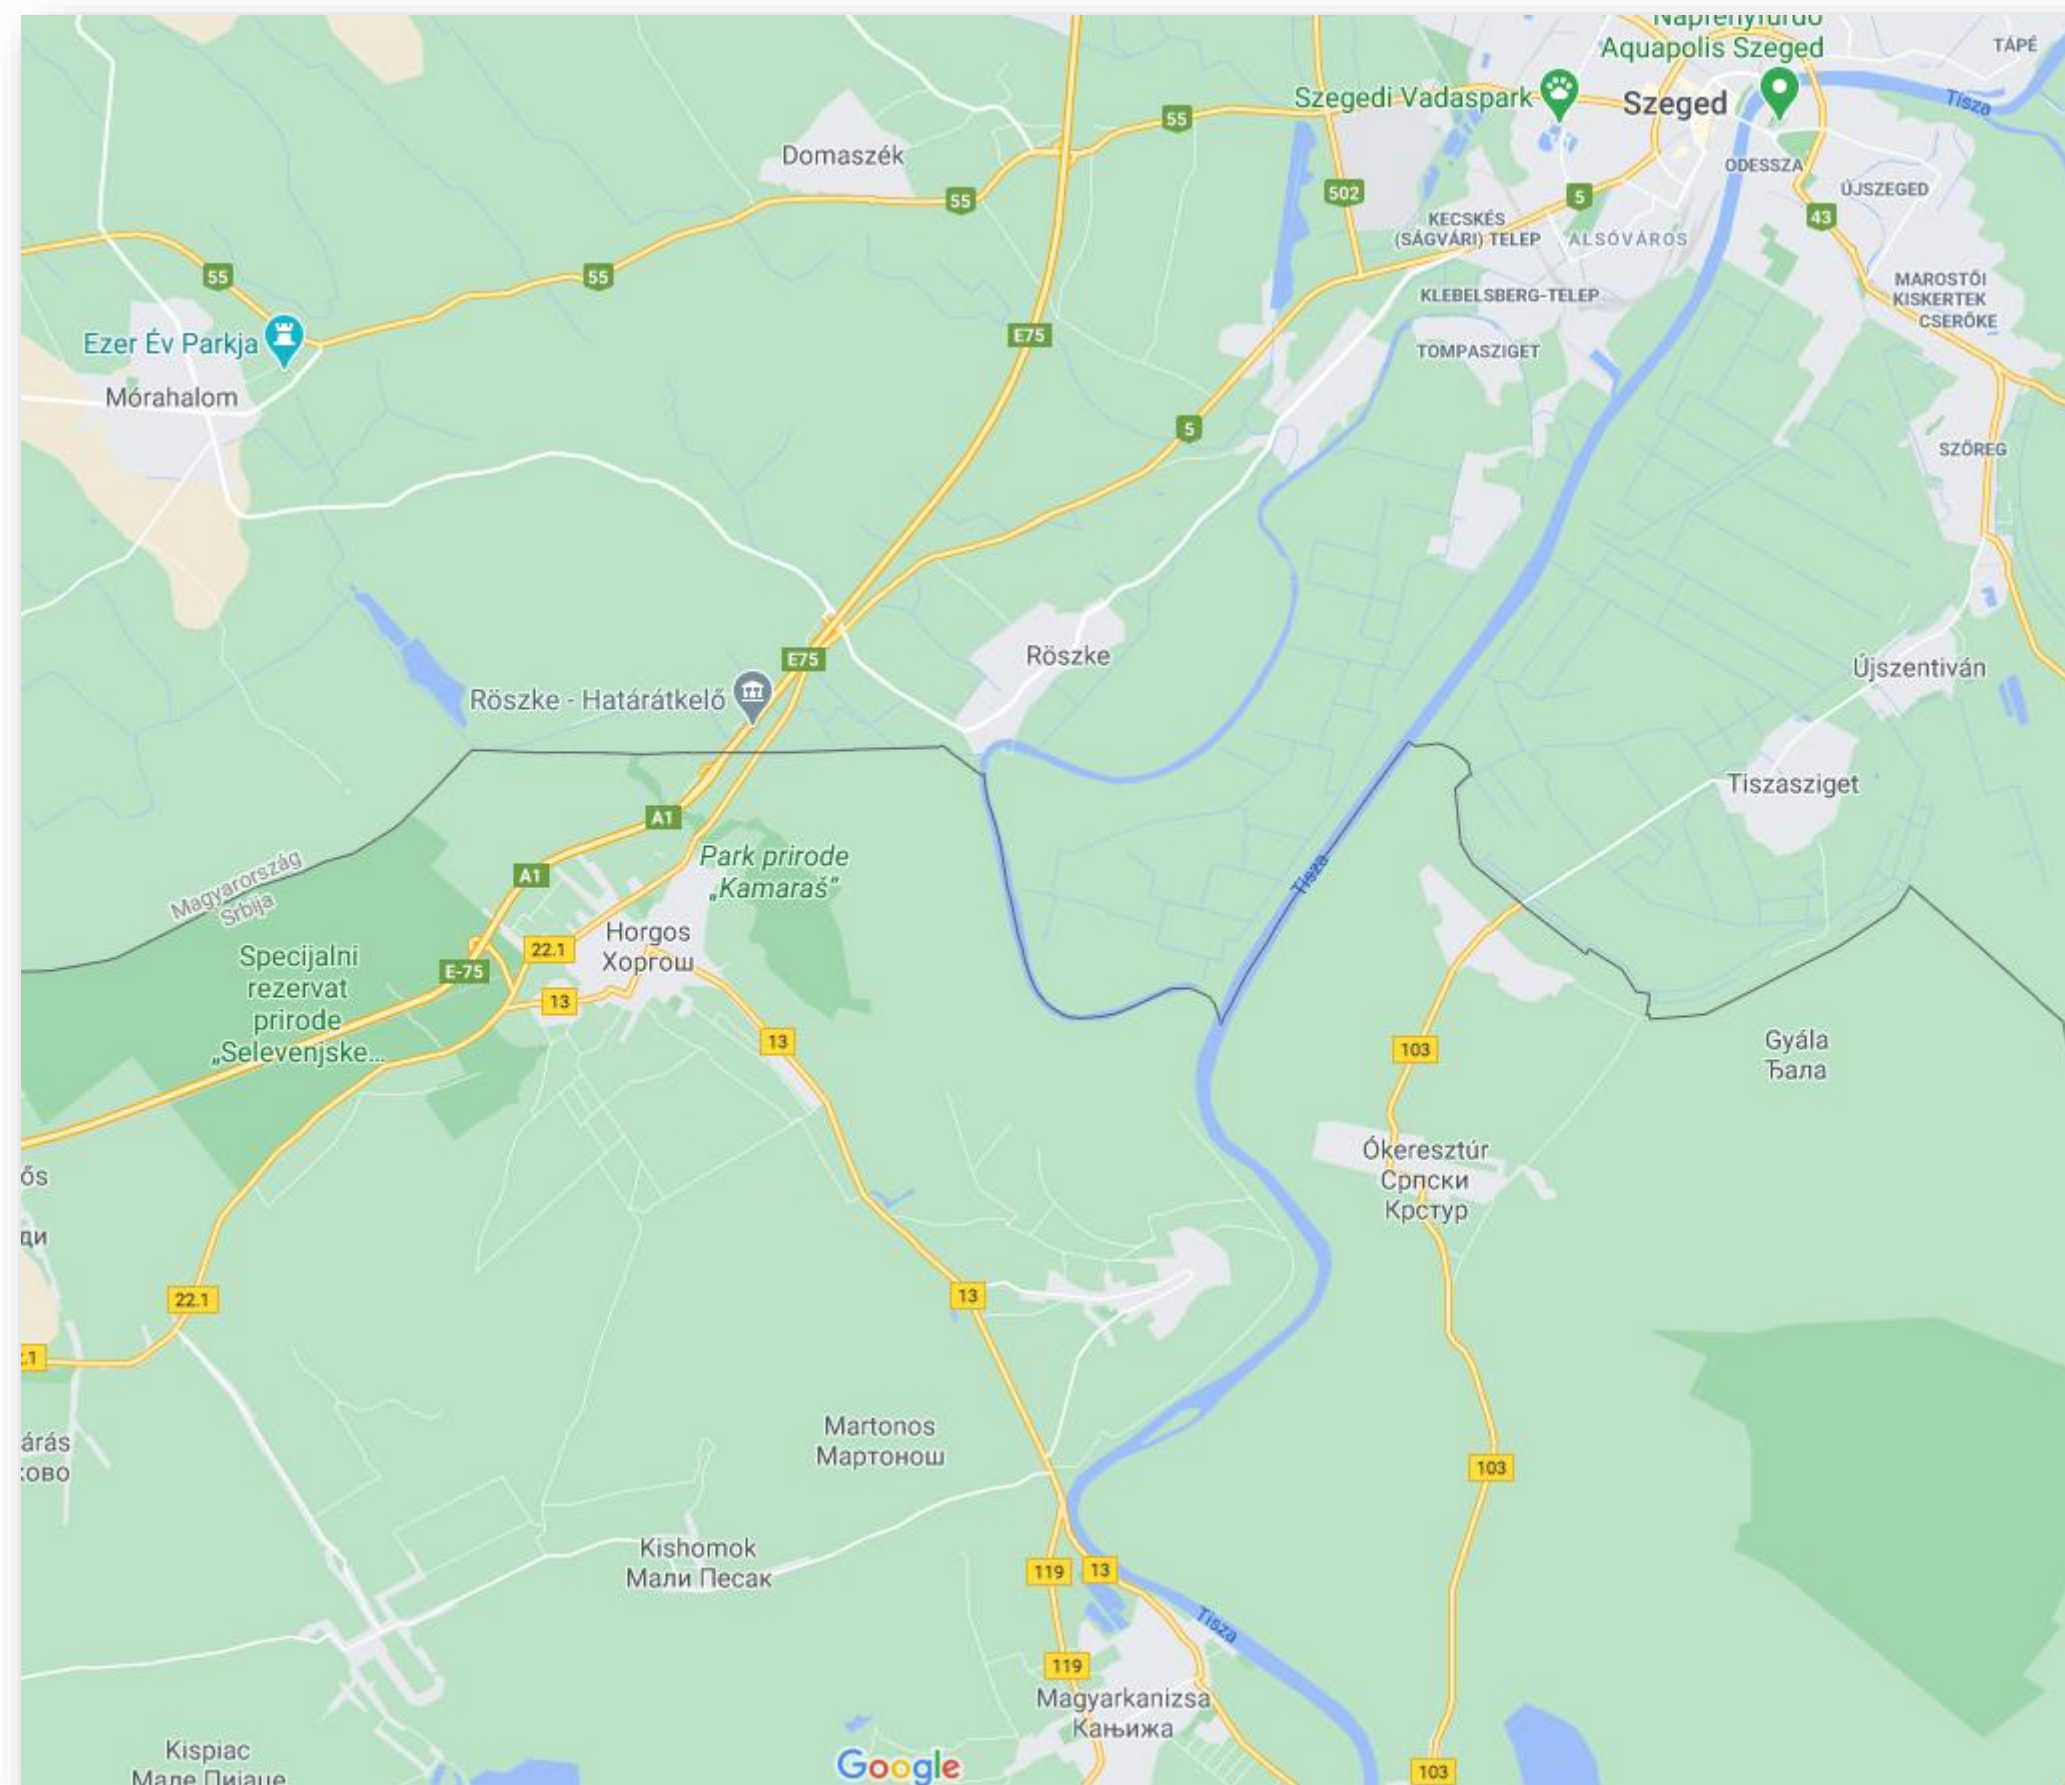

Lead Beneficiary: Municipality of Kanjiža

PROJECT SUMMARY

Horgoš, Röske, and Szeged are places strongly directed towards one another due to the living and working conditions.

**The distance Horgoš-Röske is 13km and Röske-Szeged is 12km.
This proximity makes this line suitable for cycling.**

These local self-governments and their residents and economy, but also the environment, together face the consequences of the lack, i.e. interrupted cycle lanes.

PROBLEM, CHALLENGE TO BE ADDRESSED

Due to the increasing number of motor vehicles, congestion and accidents in the beneficiaries' region are common, and air and noise pollution is increasing.

The current disconnection, i.e. the interruption of the Horgoš-Röszke-Szeged cycle line, especially at the border crossing, is quite demotivating for cyclists, so they choose to use other routes that are longer, i.e. to use other border crossings or cars.

TARGET GROUPS

- 1. The main target group are the residents of Kanjiža (Horgoš), Rösze, Szeged local self-governments.**
- 2. The second target group are tourists who travel by bicycle and cross the border between Serbia and Hungary, regardless if their final destination is in the cross-border region or they travel further and whether they are tourists from Serbia and Hungary or from another country.**

ACTIVITIES IN THE PROJECT

1.1. Technical documentation: bicycle lane Horgoš–Horgoš II border crossing

1.2. Technical documentation: Rösztke II border crossing - settlement Rösztke

1.3. Technical documentation for bicycle lane on section: Rösztke – Szeged

Total value of the above investments: 98.000,00 EUR

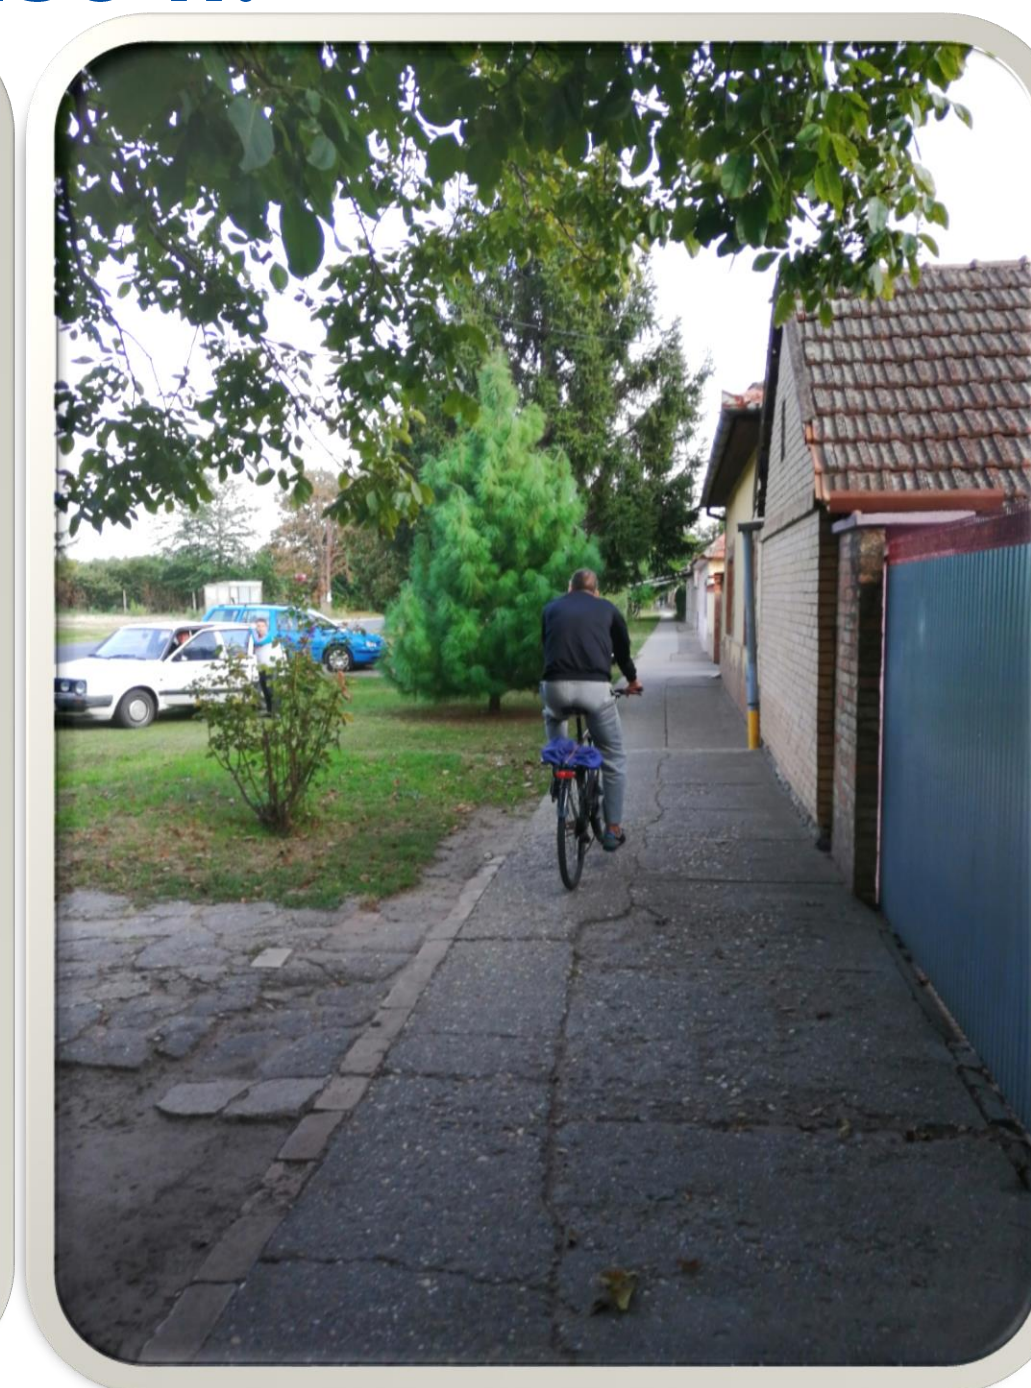

ACTIVITIES IN THE PROJECT

2.1. Construction of 650,57m cycle lane in the settlement Horgoš –

ACTIVITIES IN THE PROJECT

2.2. Construction of 895,90 m cycle lane in the settlement Horgoš – phase II.

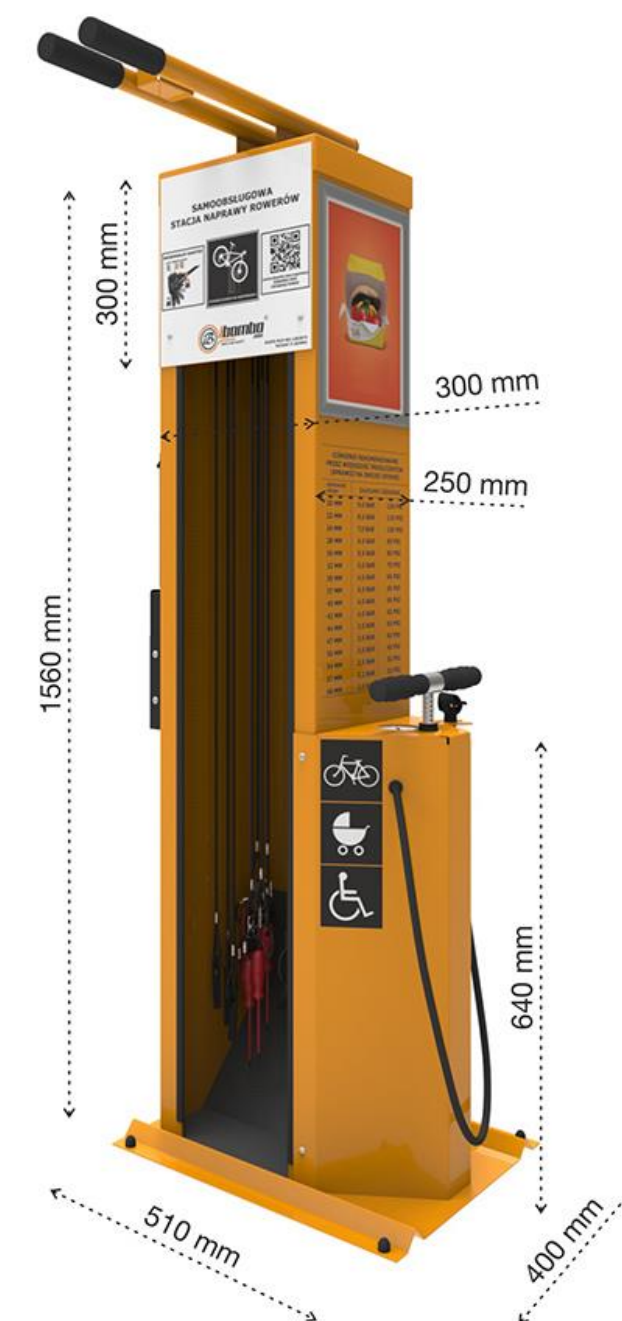

ACTIVITIES IN THE PROJECT

3.1. Building of bicycle rest area

ACTIVITIES IN THE PROJECT

3.2. Setting up of two mobile bicycle service stations

ACTIVITIES IN THE PROJECT

4.1. Organization of promotional cycling

4.2. Organization of promotional children's competition
